Connected Coyotes Digital Citizenship Pledge

Digital Technology is an important part of my life. Computers, tablets and phones should be used to learn, communicate with friends, explore the world and create. Digital technology should never be used to hurt anyone, to steal ideas or images, or to give out private information.

As a Connected Coyote I _____ agree to:

- **T.H.I.N.K.** before I post
Is it **T**True?
Is it **H**Helpful?
Is it **I**Inspiring?
Is it **N**Necessary?
Is it **K**Kind?
- Never share my own and other people's private information without checking with a parent or teacher first.
- Stand up to cyber-bullies and let an adult know if I or anyone I know is in trouble online.
- Respect each others ideas and opinions shared online even if they are different than my own.
- Understand that not everything I read online is true. I always check and double check my sources.
- Use the internet to share ideas, be creative, contribute positively to my community.
- Spend plenty of time offline playing, exploring and hanging out with friends and family.
